

My dear brothers and sisters in Christ,

Please allow me to introduce myself, I am Fr. Andrew Apostoli, CFR. I am writing about a new movement that is ready to begin in the Church called the Cenacles of Life. The goal of this movement is to encourage the formation of Cenacles (simple prayer groups) to help end this culture of death.

The intention of the Cenacles of Life is to petition our Lord through His Blessed Mother for the end of abortion, euthanasia, embryonic stem cell research, cloning and assisted suicide. Our means would be to ask each Cenacle to meet once a week to pray two rosaries as well as to observe one day of fasting each week for this intention.

As the witness of Sacred Scripture and the Church's long history would indicate, Cenacles of prayer and fasting throughout the United States will bring down abundant graces needed to end the whole culture of death. In this way, countless lives of the unborn, the severely handicapped and the elderly will be spared from the ravages of the anti-life forces so prevalent in our times.

Asking your blessing and prayers for the victory of Our Lord and His Blessed Mother through the triumph of the Culture of Life, I am

Yours in Jesus, Mary and Joseph,

Fr. Andrew Apostoli, CFR
